Advanced Driver Assisted System (ADAS) **Meeting Minutes**

Meeting Purpose:	Customer Meeting
Meeting Date:	30.11.2018
Meeting Time:	9:45 to 11:20
Attendees:	Hannes Bähr (HaBa), Aju Jose (AjJo), Christoph Jurczyk (ChJu), Juliane
	Müller (JuMu), Prof. Lindemann (PrLi)
Minutes Issued By:	Juliane Müller

Actions:				
No:	Task:	Owner	Due Date	
1	 Risk analysis adaption: Change risk to direct event which has to be prevented (eg. 1. Func. Req. to "collision") → opposite of requirement Req. ADAS-SW-8 → risk: not all areas are cleaned Req. ADAS-SW-11 → remove since not important Req. ADAS-HW-10 → cross Req. ADAS-HW-11 → risk: stop in time 	JuMu	30.11.	
2	Estimate calculation time	All	7.12.	
3	Get shielded RS232 cable for laser→arduino connection	НаВа	7.12.	
4	Build dedicated development boards for laser, motor etc.	All	31.12.	

Agenda: (What, Why, Impacts)		Action
•	Risk Analysis (30 min): Small adaptions required; Add another column for action which prevents risk (for risk value > 0.75);	1
•	Drive unit feedback control (20 min) Output Approved by PrLi Test Cases	
•	PLS communication (10 min) Software architecture approved by PrLi Cable for connection between laser and arduino (with shielding)	2 3
•	Electrical Schematic (10 min) o Approved by PrLi	

→ Next meeting: 10.12.2018 at 8:00 in Z1090
